

I'm not robot!

This free resource can be used for practice with calculating and comparing the volume of cylinders, cones and spheres. Students will explore, discover and discuss the relationship between all three shapes. My volume BUNDLE can save you money! Click on the link below. Volume of Cylinders, Cones and Spheres Mini-Bundle The same radius and height are used to determine the volume for a cylinder, cone and sphere. After completing the calculations, comparisons can be made between the volume of the shapes. Two discoveries may be made. ● One comparison students may make is between the shapes. If the shapes have the same height and radius, the cylinder will be three times the cone's volume. The sphere's volume will be twice the cone's volume. ● Students might also compare how the volume changed when the radius and height were doubled and tripled. For example, if the radius and height are doubled, the volume will be 8 times as large. If the radius and height tripled, the volume will be 27 times as large. Practice with vocabulary is important. Students will use a word bank to identify the correct geometry vocabulary word for ten definitions. Students can use a highlighter to find the vocabulary word in the word search. The ten words include: • Volume • Cylinder • Cone • Sphere • Height • Base • Formula • Net • Solid • Face You may be interested in the following related resources. The Clever Clover - Pinterest The Clever Clover - Instagram The Clever Clover - FacebookStandardsKnow the formulas for the volumes of cones, cylinders, and spheres and use them to solve real-world and mathematical problems. This product is an extremely engaging activity that allows students to connect volume of cylinders, cones, and spheres to a real-life situation. In this activity, students will be creating an ice cream shop. They will design a name and logo for the shop, decide on their three best-selling flavors, and answer math problems related to volume of cylinders, cones, and spheres. This particular activity focuses on cylinders, cones, and spheres ONLY. This is a great activity to use whole group, paPage 2Feeling uneasy about prepping for next year? Whether you are in the classroom or are teaching virtually, this No Prep Centers Bundle will come in handy! Each student will have his/her set of counters and mats, and they are good to go! No cutting sets of games/centers for each student! Engage your students at school and/or at home with our No Prep centers!Featuring: Dice, Pattern Blocks, Bingo Chips/Daubers, Counters, Counting Cubes, & Bears! **Now includes a DIGITAL version for Google SlidesPage 3This set includes 36 digital and printable Volume Task Cards for reinforcing, teaching, and enriching your math unit on volume. The digital and printable cards feature a variety of tasks for students to complete, including labeling rectangular prisms dimensions, computing volumes, word problems, and additive volume.Volume Task Cards { Rectangular Prisms Including Additive Volume }What's included in this set of Volume Task Cards?32 printable math task cards (in TWO versions, the colorful originaPage 4Do you students love Minecraft? Have you been wondering of a way to incorporate it into your lessons about volume, area, and perimeter? Look no further because you've found a fun project-based learning activity that will interest your students! Students will complete a Minecraft-inspired math project that is related to volume, area, and perimeter. You can use the project as an extension activity, individual assignment, group project, center work, or homework. Great STEM project!You will receivePage 5This long vowel word families bundle focuses on words that end in "e" (CVCe). This set contains 222 image files, which includes 111 color images and 111 black & white images in png. All images are 300dpi.The CVCo Long Vowel Word Family Set includes: CVCe Long U: (20 images - 10 color / 10 b&w) -UNE: dune, tune-UBE: tube, cube-UTE: cute, muteMixed Long U: mule, fume, fuse, huge CVCE Long A: (86 images - 43 color / 43 b&w) -AKE: make, lake, bake, wake, rake, take, cake-AME: same, name,Page 6This bundle focus on beginning digraph sounds: Ch, Ph, Sh, Th, and Wh. This bundle contains 60 image files, which includes 30 color images and 30 black & white images in png and jpg. All clipart images are 300dpi for better scaling and printing.* Buy the bundle and save big!This bundle contains everything found in the:* BL Words : blanket, blender, blimp, blizzard, blocks, blow/blew* CL Words: clean, clothes, clam, clown, clock, cloud* FL Words: flower, float,Page 13Using mentor sentences is a great way to incorporate grammar, word work, vocabulary, writing, and reading!Students can work through the mentor sentence all week, labeling, noticing, revising, and imitating. This resource includes a worksheet that students use all week, with a separate assessment for the end of the week.This volume covers: common nouns, verbs, adjectives, pronouns, prepositions, prepositional phrases, conjunctions, articles, contractions, suffixes, types of sentences, and subjectPage 14S blends clip art bundle contains 84 image files, which includes 42 color png images and 42 black & white png images. All images are 300dpi for better scaling and printing.* Buy the bundle and save big!The S blends clipart bundle contains everything found in the:S Blends - SC words: scar, scoop, scuba, scale, scooter, scarS Blends- SK words - ski, sky, skate, skunk, skip, skPage 15Make teaching volume fun with this 5th grade hands-on math unit! 5th Grade math standards 5.MD.3, 5.MD.4, and 5.MD.5 are covered. In this two-week-long volume unit, your students will learn about volume as cubic units, finding the volume of irregular figures by counting units, calculating the volume of rectangular prisms, finding the length of a missing side, finding volume by multiplying the area of the base by the height, and using addition to calculate the volume of a composite figure. They'llPage 16Bundle for Voice and Speech I'm excited to bring you these three popular products in one Money-Saving Bundle! Volume Control, Vocal Coaster, and Pocker Pacers will be treasured products in your repertoire of SLP materials for many years to come. The products target: prosody, intonation, reader's voice, speech stress, vocal feeling, volume, intensity, pacing, rate of speech, and so much more. Check out the individual products below for a full description of each product. *****Page 171 Can Math Games are the perfect way to make math fun! This 5th Grade Math Game focuses on ALL Volume Standards including measuring the volume of one and two rectangular prisms and problem solving, and provides students with practice in the form of multiple choice or short answer questions. QR codes (optional) make this game even more interactive as students get immediate feedback on their work! ALL 1 Can Math Games can be used for independent practice, a guided math activity, whole group reinventors Volume 1 and 2 BUNDLEBy Your students will be *AMAZED* when you introduce them to these Inventors and their inventions! The real picture sorting cards are great for a center and each inventor includes NO PREP printables perfect for recording sheets or research! This is a bundle of Volumes 1 & 2! Inventors included are:Alexander Graham Bell - TelephoneGeorge Washington Carver - Several products using peanutsThomas Edison - LightbulbHenry Ford - AutomobileBenjamin Franklin - Bifocals, lightning rod, Franklin stoveGarrrdEditing Comies Volume Oneby Grammar Comics: Sentence Problems (Common Writing Mistakes) addresses some of the most common errors students face with sentences including: vague pronounsrnun-on sentencestructure fragmentsmisplaced modifierssubject verb agreementparallel structure. Each lesson is told as a comic with multiple examples. Then a worksheet follows with additional instruction. An answer key with additional instructions for teaching each lesson is included as well. If you like this resource, you might be interested iEngaging Writing Activities Volume 2By This writing resource (Volume 2 in the series) allows hands-on engaging practice with eight concepts for writing! This is perfect for a writing center or hands-on writer's workshop! The writing concepts included in volume 2: Is it a sentence or a phrase? When do I use a capital? When do I use a period? Asking or telling sentence question marks vs. periods How do writers get ideas? Rhyming words make silly sentences or short poems Details give the reader the full picture "How To" writing EaGUIDED READING Mega Bundle VOLUME 2By This Guided Reading Mega Bundle Volume 2 will set you up for Guided Reading Instructional SUCCESS! This Mega Bundle of Guided Reading Units will give you the structure that you need to help you successfully implement and run your Guided Reading small group instruction seamlessly within your classroom.This Guided Reading Mega Unit- Volume 2 includes 12 Guided Reading Units 6 Fiction Units and 6 Non-Fiction Units.Each Guided Reading Unit includes: What's included in this Guided Reading Teaching Tact-Its®These engaging volume labs allow students to experiment and discover volume formulas of 3D solids. Help your students understand and remember where the formulas come from (and have fun while doing so)!The labs let students discover and make sense of formulas for the following 3D solids:Lab 1: PrismsLab 2: CylindersLab 3: PyramidsLab 4: ConesLab 5: SpheresIn each lab, students create 3D figures, hypothesize, and experiment. They see how the 3D solids relate to each other as they figure out theirStarted as a Squiggle Now I'm here Drawing Challenge is a fun and creative way for students to show critical thinking and creativity!Use as a fun brain break, early finisher assignment or even art assignment.How it WorksStudents receive a printed copy of one of the drawings - It's a great way to kickstart some spontaneous creativity - and seeing how we all build upon the squiggles in our own unique way is fascinating.What's Included?30 Started as a Squiggle drawingsThis 59-image set is packed with images of measurement tools and activities for volume or capacity! (59 total images: 35 vibrant, colored images, 24 black and white versions) *THIS SET IS ALSO INCLUDED IN MY HUGE MEASUREMENT MEGA BUNDLE If you have purchased that bundle, you already own this! Images include : girl with graduated cylinder - boy with measuring spoon - girl pouring water - measuring spoons on a ring - individual measuring spoons - measuring cups (three sizes) - two liter of sodMetric Units Bundle - Mass and Volumeby "This product is a bundle of two products available in my store. It includes Metr Volume Sort and Metric Mass Sort. Each is also available as an individual product for \$3.00 each. Metric Volume Sort The object of this activity is for students to sort cards into the categories they would measure them with. For example, would you measure a pool with liters or milliliters? This game has 2 heading cards, 24 sorting cards, a recording sheet, and answer key. Metric Mass Sort The object of this aPRINTABLE ACTIVITY: In the measuring volume packet, you will download a measurement interactive notebook craft for students to practice gallons, quarts, pints and cups. There are three anchor charts, including a measurement man. You will receive three interactive notebook pages. In Sets A and B, the students must determine which holds more. In the last set, students must determine if the given measurements are equivalent. Answer keys are included.-----You may also liStudents practice finding both surface area & volume of rectangular and triangular prisms.Includes 8 practice problems involving a cube, square-based rectangular prism, rectangular prism, and triangular prisms where its base may be scalene, isosceles, or equilateralWork & solutions includedPage 18Using mentor sentences is a great way to incorporate grammar, word work, vocabulary, writing, and reading!Students can work through the mentor sentence all week, labeling, noticing, revising, and imitating. This resource includes a worksheet that students use all week, with a separate assessment for the end of the week.This volume covers: common nouns, verbs, adjectives, pronouns, prepositions, prepositional phrases, conjunctions, articles, contractions, suffixes, types of sentences, and subjectPage 19Volume Task Cards (Prisms, Cylinders, Pyramids, and Cones)This activity includes 20 task cards in which students will practice finding the volume of the following figures: rectangular prism, triangular prism, trapezoidal prism, cylinders, square pyramids, rectangular pyramids, triangular pyramids, hexagonal pyramids, and cones. *These are more challenging questions that were created for a high school level geometry class. The Pythagorean Theorem is required on some cards to determine a certainPage 20Teaching students with special needs to write about the content they know can be a challenge. This leveled set includes a structured approach to teaching students to write paragraphs.In this download you will receive 6 themed bundles of paragraph writing journals in 2 different versions! Check it out.In version 1, students are given a labeled graphic and word bank to help them build paragraphs.In version 2, students are given a graphic organizer to help them organize their ideas and thoughts inArea, Perimeter, & Volume SortBy All of the following problems are written to be aligned with the TEKS for Area, Perimeter and Volume. These problems and sorting activity can be used from 3rd – 5th grades, increasing the expectations for how students solve the problem with each grade level. 3rd grade will do more sorting and explaining why the problems are perimeter, area, or volume to reinforce the concept and knowledge. 4th grade can sort and begin to solve and 5th grade can sort, write the formula, and use the formula to solvSubjects:This bundle includes 14 different lessons over introducing volume and surface area with an area and perimeter review, as well as identifying key features of 3D shapes. It also includes notes over the volume of cylinders, cones, and spheres, and surface area of cylinders, rectangular prisms, and triangular prisms. Students and teachers love how easy these notes are to follow and understand. This bundle includes some pre-lessons that will be necessary for students who may have missed instruction d created this Never Have I Ever Game as a "get to know you" game for my Middle School Advisory group to play after I searched and searched for one that was both appropriate and relevant for middle schoolers. This is a FUN way to get to know each other - I ask students to share their scores after we get through all 20 questions and I specifically ask about certain numbered questions (that is why having numbers ON the slides is key!) This game can be played in person (I project the Google SlidesSubjects:Enjoy these 6 handwritten fonts used for personal and commercial use. These fonts are perfect for classroom resources you make to use with your students. Included in this bundle: *6 true type fonts *Personal and Commercial Terms of Use *Font Preview *Credits page/logo Connect with Me! Instagram: 4-Day Fifth Grade Volume Bundle includes everything you need to make your students masters of finding the volume of right rectangular prisms. What's Covered? =Day 1: Introduction to Volume (8 page packet)=Day 2: Volume through Multiplication (8 page packet)=Day 3: Volume with Missing Dimensions (8 page packet)=Day 4: Problem Solving with Volume (8 page packet) Each of the Daily Lesson Packets Include=Instructional Guide=Teacher-Lead Example Problems=Partner Practice=3-Page Independent PrAre you looking for a hands-on "How To" writing unit where your students are motivated and successful? Yes? Then this is the unit for you! I am so excited to be finally posting this unit! How The Unit Is Set Up: So here's my thinking... I know that when you are doing procedural writing with your students you should make it as hands-on as possible. However, I will be honest I sometimes find it a hassle to try and collect everything needed. With that in mind I decided that a compromise wouldn*If you enjoyed the first set (HERE), then I think you'll enjoy this new set.* They CAN all write! Even as our youngest students emerge as writers, then can observe and describe what they see in pictures. Get all your students writing about what they see and observe with my year-long Label It! language building activities. This Common Core aligned product is especially beneficial for emergent writers and students learning to match language to the world. Please click on the DOWNLOAD PREVIEW buMollie Jo Fonts: Volume TenBy This is the tenth volume of fonts from Mollie Jo Fonts! Take a look at the preview for a closer look at every font!Check out my growing BUNDLE here!This Thanksgiving/Fall inspired font collection includes 7 true type fonts:My Oh My Gourd-MJ Gobble TII You Wobble-MJ Gobble TII You Wobble-MJ Sweater Weather-MJ Talk Turkey To Me-MJ Apjoo Of My Friends-MJ Pumpkin To Talk About-MJ Hey Gourdeous*You will also receive a "Design Tips" PDF about how to get the most out of the fonts above that have hidden elements. I show you how [These supplemental digital math activities can be used to support volume concepts. They are interactive (drag and match, using the typing tool, using the shape tool) and paperless through Google Slides™ and PowerPoint™. Topics Included:Volume of Rectangular Prisms and Cubes (4 interactive slides + exit ticket)Volume of Triangular Prisms (4 interactive slides + exit ticket)Volume of Composite Figures (4 interactive slides + exit ticket)Volume of Pyramids (4 interactive slides + exit ticket)What32 VOLUME task mats that are perfect for whole page work, task cards, SCOOT and much, much more! Let's work VOLUME!ut! Included in this purchase are 32 TASK MATS (16 composite and 16 regular) to help your students conquer finding volume of both right rectangular prims (or regular rectangular prisms) and composite figures. Common Core aligned to CCSS 5.MD.5C. PLUS, an answer key and a student recording sheet are also included. Print these task mats 1 to a page, 4 to a page, or whatever sizeOh Hey Fonts: Volume 6By In this Back to School Themed set, you'll receive 5 original fonts created by me, Lindsay Flood!Oh Hey TeacherOh Hey Bladder TrainingOh Hey Jean DayOh Hey Hair PensOh Hey EleminoPe This font volume is for personal and commercial use.Included in this purchase are tricks and tips, as well as font pairing options!TERMS OF USE:YES, each volume and bundle purchase is for one single user only. Please honor this by purchasing more than one license if you'd like to share with a friend. Thank you, yes, MyPage 21 These printable & digital Google Slides 3rd grade math unit focuses on teaching students about measuring mass and volume. This unit includes anchor charts, practice, pages, manipulatives, test review, and an assessment to learn about practice finding how to compare, estimate, read, calculate, and solve story problems for mass and volume. Students will practice this skill with a variety of strategies including visuals, arrays, manipulatives, checklists, and more over multiple versions and lePage 22Volume and Surface Area (Prisms, Pyramids, Cylinders, Cones, Spheres, Hemispheres) Bingo Game/This is a PowerPoint Fly-Swatter Bingo Game in which the files really do fly, which the students LOVE! The game reviews volume and surface area of the following solids: rectangular prisms, triangular prisms, trapezoidal prisms, pentagonal prisms, cylinders, square pyramids, triangular pyramids, hexagonal pyramids, cones, spheres, and hemispheres. For pentagonal and hexagonal bases, the base area isPage 23Listening Smash Mats cover auditory closure, listening to descriptions, categorizing, and auditory memory.Includes 5 Listening Smash Mats to be used with playdoh, magnet chips, crayons, or any manipulatives that your students find engaging. I like to roll out balls of playdoh, and when they hit the language target, they can smash the playdoh on the picture. Everyday vocabulary- use all-year! Questions for all 4 target areas (auditory closure, listening to directions, categories, auditory memory) aPage 24DIGITAL PDF AND PRINTABLE ACTIVITIES: You will download 30 geometry task cards for your 5th grade, 6th grade, middle school, and special education students to practice finding volume with real world word problems.Examples include pools, sand boxes and pits, basements, containers, spherical balloons, cylinders, rectangular prisms and more. You may use the printable task cards in your math centers or stations for fun practice or review games and activities, such as a scavenger hunt or SCOOT. TheyPage 25A set of 24 cards to review the different attributes of 3D shapes (PRISMS ONLY) including measuring volume. Completely written in Spanish, these cards are ideal for centers, math partners, and fun-guided teacher led review. Including in this set you will find cards that ask students to: -Find the volume of different prisms -Find the number of vertices, faces and sides -Identify 3-D shapes (whether they are pyramids, cubes, triangular prisms, etc) In this set you will also find 3 posters: -PartPage 26Math Teacher's Got Problems presents a fun, engaging way for students to practice finding the surface area and volume of prisms and pyramids. NO students like to sit and solve problems, but as math teachers we know practice is the key to mastery. This is a favorite activity of my students. (Yes, math practice is their FAVORITE). 15 surface area and volume problems, including rectangular prisms, cubes, triangular prisms, rectangular pyramids, triangular pyramids, and composite figures. Students m
